FRONTEND DEVELOPER

Dedicated Front-End Developer with experience translating UI/UX design concepts into high-quality code. Proficient in HTML, CSS, Tailwind CSS and JavaScript, with a deep understanding of front-end frameworks like React and NextJs. Proven track record of delivering visually appealing and intuitive user interfaces for diverse web applications.

PROFESSIONAL EXPERIENCE

Digitstem   **November 2023 - July 2024**
Frontend developer - internship

As a Frontend Intern at Digitstem, I am responsible for frontend development and maintenance of software applications. Utilizing my skills in JavaScript, React, Typescript, Redux, Chakra UI and Ant Design, I collaborate with cross-functional teams to gather requirements, design solutions, and implement new features.

- Collaborated with the design team to implement user interfaces and functionalities for Email Marketing platform and Learning Management System.
- Assisted in building and maintaining the company website using JavaSceipt, React, Tailwind, and NextJs
- Implemented responsive design to ensure compatibility across various devices
- Conducted code reviews and participated in Agile development processes

PROJECTS

SALESTRACK – [E-Commerce]

- Developed a responsive and intuitive user interface to enhance the customer shopping experience across various devices.
- implemented key features including product catalog management, shopping cart, checkout process, and order tracking.
- Ensured high performance, security, and scalability through rigorous testing and optimization.
Technology: React, Redux, Chakra UI, Formik

DIGITSTEM – [LMS]

- Coordinated with cross-functional teams, including software developers and UX/UI designers to define project requirements and objectives.
- implement the development of core LMS features such as course management, user authentication, Blog, and progress tracking.
- Implemented integration with third-party tools and services to extend the platform's capabilities, including CMS for blog management.
Technology: NextJs, Tailwind, Google cloud, Supabase, RESTful APIs

SUMZ– [AI article summarizer]

- Developed a responsive and intuitive user interface that consume content efficiency for users by providing quick and accurate summaries of extensive textual data.
- Integrated an open-source API to summarize lengthy article into clear and concise summeries
- Redux was used to manage the app's state and to update data state.
Technology: React, Redux, Tailwind, Rapid API

REALTOR - [REAL ESTATE MANAGEMENT SYSTEM]

- Developed and implemented key features including property listing management, user profile and authentication.
- Integrated with third-party services such as Google Maps for location services and firebase for property data and data management.
- Ensured the platform's security, performance, and scalability through rigorous testing and optimization.

Technology: React, Tailwind, Firebase, moment-timezone, Google map

---

SKILLS

Core Technologies - Javascript, HTML5, CSS3, SCSS, React, Nextjs, Typescript, Git, RESTful Api, Tailwindcss

Others - Firebase, MongoDB, SupaBase, ChakraUI, Ant design Shadcn UI, Redux, Typescript, Formik, React-hook

Tools - VS Code, Netlify, Vercel, Github, Vite, NPM, Figma, Adobe XD, Chrome

---

EDUCATION

Federal Polytechnic Bida, Niger State   **2021**
Higher National Diploma (HND) in Computer Science

CERTIFICATIONS

Udemy
React.js & Firebase Project - ReactJS 18, Firebase 9 Project

FreeCodeCamp
Front End Development Libraries Certification
